

Road Committee Meeting May 24, 2018

Attending: Clyde Hinderliter, Farrell Lewis, Scott Green, Dennis Weaver, Ruby and Kelly Vernon,

Discussion of road work to be done June 21-23.

Bids had been presented at the Board Meeting earlier in the month,. It was determined there that we would move forward with 3 Dump Trucks from Facer, and a Loader & Excavator from Mesco. The Budget will be around \$32,000.00. This budget included Inland Marine Insurance. The insurance policy is for 1 year. We are hoping it will cover us for next year as will if we can get the work done early next year.

There was a discussion about food and lodging for the truck drivers. Clyde is going to figure what they needed and contact the committee

Machine operators were discussed and Clyde is to verify who could make it.

We decided for safety, we would put a sign on the gates to warn people of road construction and to be cautious while driving. Ruby is going to work on getting these signs. She is also to get an announcement on Face Book and the Web site about the dates of the road work.

A discussion of the Road Committee being on the property to act as Pilot Drivers for the Dump Trucks to help avoid any accidents. We will take turns as needed to go in front of the dump trucks.

The trucks will go from the gravel pit west to the Chad's Little Bear road, North to the Picnic area and the start spreading the gravel towards east spring. We are hoping to get that far. The trucks will dump a large pile of gravel that we can spread further up Rock Canyon at a future time.

We also discussed getting a rock truck to carry the barriers to the south fence to block the traffic off the pipeline. We want to get that done while the heavy equipment is up there. This is part of the Security Team's work and we are combining efforts to get that done this year.

An idea was suggested for the Hunt Team that they put up a sign near the turn off Ant Flats road that warned "Security check point ahead" We hope this will avoid people even trying to go up the road to the gates.
